We hereby consent that the applicant, which we hold custody over, has the right to stay in Denmark during their enrollment at an educational programme in Denmark, so that the Danish Agency for international Recruitment and Integration is able to handle the applicant's case regarding a residence permit in accordance with the Executive Order on the Issue of Residence and Work Permits for Students.

When giving our consent, we have ensured:

- that both parties, who hold custody of the child, approve of the temporary residency
- that we have provided the child's birth certificate and, if relevant, documentation of legal custody of the child (e.g. death certificate of a parent, court order of sole custody, legal adoption papers)
- that we have provided a copy of both custody holders' data pages in their passports.

The approval is valid for the duration of the residency, or until the child is of legal age. If the applicant applies for a new residence permit later on, a new declaration of consent is required.
